NISSAN

350Z

Whiteline is now catering for the extremely popular and highly modified NISSAN 350Z. Currently available for the 2 door coupe is a range of performance sports springs, heavy duty adjustable sway bars, motorsport spherical, sway bar links and the highly publicised Whiteline BLACK BOX . Whiteline's BLACK BOX is a world first allowing the driver to electronically tune the stock stability control system to give control back to the driver. The patented BLACK BOX system is unique in allowing cockpit adjustable handling bias, a single dial delivers more oversteer or understeer on demand.

FRONT APPLICATIONS

BLACKBOX Handling Bias Modifier.
Spring-coil lowering kit-Control.
Swaybar link kit-spherical rod end
Swaybar-h/duty Blade adjustable

REAR APPLICATIONS

BLACK BOX - HANDLING BIAS MODIFIER

Whiteline's BLACK BOX is a world first allowing the driver to electronically tune the stock stability control system to give control back to the driver. The patented BLACK BOX system is unique in allowing cockpit adjustable handling bias, a single dial delivers more oversteer or understeer on demand. Only Whiteline's BLACK BOX lets you tune the amount of intervention and even turn off stability control, without error codes or warning lights.

BLACK BOX is designed for Race or Off-Road use but its still supplied in kit form specially programmed for each vehicle. Comprehensive installation and tuning instructions are provided but some modification of wiring is necessary and we recommend fitment by a qualified workshop.

More details also available on YouTube, search **Whiteline HBM** or BLACK BOX to see more.

*Worldwide patent pending
